Has your child had their annual eye exam? It's important to do before they start school!

Eye See...Eye Learn™

is a program that provides kindergarten-aged students with a comprehensive eye exam from an optometrist. There is Alberta Health coverage towards your child's eye exams up to age 19. **If required, kindergarten-aged students also receive a free pair of eyeglasses.**

How kindergarten-aged students participate*

Step 1 Parents can find a participating optometrist at optometrists.ab.ca. Click on Find an Optometrist and **Eye See...Eye Learn™**, then enter your postal code to find a doctor close to you. **Call and book an appointment.**

Step 2 See your optometrist for the eye exam. Have your health card ready. There is **Alberta Health coverage towards your child's eye exams up to age 19.**

Step 3 If required, kindergarten-aged students will **receive a free pair of eyeglasses.** Ask to see the frame selection available. The optometrist will order your glasses for you.

***Free glasses are covered by a one year manufacturer's warranty.**

Who can participate?

Eye See...Eye Learn™ is available to all **kindergarten-aged students** in Alberta. It's important to address eye health and vision problems before children begin school.

Children are eligible from August until they begin grade one.

Eye exam coverage

There is Alberta Health coverage towards your child's eye exams up to age 19. It's a painless, non-invasive process that could change their lives!

Did you know?

- 80% of learning is visual.
- 1 in 4 school-aged children has a vision problem.
- An eye exam detects health problems such as crossed eyes or lazy eye.
- Children with vision problems are often misdiagnosed as having learning or behavioural disabilities.
- The earlier an eye health or visual problem is identified, the more likely it can be corrected.
- Children often don't know they have a vision problem, as they believe what they are seeing is normal.
- It is not uncommon for parents to believe they would know if their child has a vision problem, because these issues can be hard to spot particularly if there is a problem in only one of the eyes.

What is an optometrist?

Your optometrist (doctor of optometry) is a primary source for all your vision, eye health and eyewear needs. They have the knowledge, tools and equipment necessary to diagnose, treat, prescribe medications or refer to a specialist, if needed.

Choosing Contact Preferences Using School Messenger

Want the option to have us text you?

If you want the option to receive text messages you **MUST** opt-in. **To opt-in, text Y to 978338.** If the number you are texting from is in the system you will get a notice letting you know your opt-in is complete.

Are you receiving too many messages?

Last year Prairie Rose School Division launched School Messenger, a communication tool that allows the division to phone, text and email parents. Since the launch, there have been questions as to how parents can manage the number of devices being contacted when a message is sent. Parents can actually manage the settings themselves by using the School Messenger app to turn notifications ON and OFF.

Step 1: Download the School Messenger App (see image on the left - blue icon)

Step 2: Using your individual email address, set up your account. **CHOOSE CANADA**. You will be asked to confirm your account through your email address.

Note: Each guardian requires their own email address to activate the app. If only one guardian has an email on file, any additional guardians will need to provide the school with an email address prior to activating the app.

Step 3: Click on the 3 lines at the top left of the screen. This will bring you to the main menu. Choose Preferences from the list.

Step 4: For each category choose how you would like to be notified.

Emergency - Used solely for emergency purposes

Bus Cancellation/School Closure - Bus notifications and school closure announcements

Attendance - Calls regarding your child's attendance (*Note: Not all schools use this feature*)

General - Day to day information from the school. You must have the email activated to receive the school newsletter.

General CASL - Day to day information from the school regarding financial items (ie: hot lunch, school fees, yearbooks, school council fundraising, etc.)

Step 5: Even if you turn off most types of notifications (phone, text, email) you can still receive those messages through push notifications. The app will allow you to view these messages without calling, texting or emailing you. To turn on Push Notifications:

- Click on Settings
- Choose Push Notifications
- Ensure all boxes (Emergency, Attendance, General, General CASL, Bus Cancellations) are green.

Step 6: The app will inform you when a message has been sent from the school or division.

Please note: Parents of new students will not be able to modify their settings until their information is entered into the Prairie Rose School Division system. Unless they start mid-year, this won't occur until September.
